

# Powering growth. Expanding possibilities.

## COMPANY OVERVIEW

Since our inception over 30 years ago, SGH has grown into a diversified group of business lines focused on the design and development of high-performance, high-availability, enterprise solutions that help our customers solve for the future. Across our computing, memory, and LED solutions, SGH provides deep technical knowledge and expertise, custom design engineering, end-to-end customer service, and build-to-order flexibility. At SGH, we never stop seeking a better way. Because when better never ends, we build a world that's always advancing.

## OUR LINES OF BUSINESSES

### Intelligent Platform Solutions (IPS)

Our IPS group offers specialized platform and services for high-performance computing (HPC), artificial intelligence (AI), machine learning (ML), fault-tolerant computing, and the internet of things (IoT) that span the continuum of edge, core, and cloud.

### Memory Solutions

Our Memory Solutions group delivers high-performance custom memory and storage solutions through the design, development, and advanced packaging of leading-edge products.

### LED Solutions

Our LED Solutions group provides application optimized LED chips and components for high power and mid-power general lighting, video screens, and specialty lighting applications leading the industry in performance and reliability.

## OUR VALUES

### + Put people first

Respect, include, and support one another  
Seek diverse perspectives  
Listen to understand

### + Act with purpose

Solve for the customer  
Flex to every challenge  
Aim for impact

### + Drive progress

Be curious about what's possible  
Think outside the box  
Care for the world we live in

### + Deliver results

Take action and ownership  
Reflect, learn, and grow  
Raise the bar everyday
